pewag chain cutter PKS300

NEW
from pewag

pewag chain cutter

PKS300

Especially developed for cutting chains with a wire diameter up to 16 mm (0.6")

- **30 tons cutting force**, sufficient to cut 16mm chains
- **Hydraulic cylinder** especially for stamping and cutting applications
- **200 bar** unit for long life of hydraulic components and **low noise level**
- **Carbide blades (GB52)** for long service life time
- **Foot-operated switch** for hands-free operation
- chain cutter mount on **functional mobile trolley**
- **Powerful Bosch hydraulic unit with 2.2 kW Siemens motor**

Our chain and wire cutters stand out for their high quality and performance. They effortlessly cut 16 mm chains of any grade and handle up to 20,000 cuts and more.

These features make our chain cutters unique

- Blades are easy to replace
- Blades may be used up to six times → service life is six times longer
- Adjustable blade spacing
- Adjustable stroke
- Fast cutting process
- Highest quality criteria
- The cutter is also set up for rope-cutting (wire ropes)
- Robust gauge glass for clear view
- Optional: light; guaranteed clear view under different light conditions

Available from the 1st quarter of 2022.
