

# pewag entertainment solutions

Innovative & high quality lifting solutions  
for the entertainment industry

## Reliable products with innovative corrosion protection (corropro).

The entertainment and stage industry is a dynamic environment, with numerous special applications. These operations require effective lifting and rigging solutions to ensure smooth execution and maximum safety. pewag lifting solutions are developed and produced to meet all requirements.

pewag lifting equipment enables efficient, precise, and secure handling and rigging operations.

### What is pewag PCP corropro?

pewag corropro is an electrochemical deposited anti-corrosion coating, which has a zinc bondering pretreatment. In a dipping bath, an epoxy based anticorrosion layer is electrochemically isolated on the surface of the work pieces by coagulating the binder.

The colouring is black, similar to RAL 9005.

For more details see corropro folder on our website or scan QR-Code to get directly to the folder.

#### Corrosion protection values in comparison

PCP – corropro	> 430 h
PC – powder coated	> 360 h
LAC – varnished	24 h

\*) At mechanical undamaged, not covered areas. Minimal covered areas may occur at the coating process.

### Salt Spray Test

Starting situation	final state
<p>PCP – corropro</p>  <p>before</p>	<p>528 h</p> 
<p>PC – powder coated</p>  <p>before</p>	<p>528 h</p> 
<p>LAC – varnished</p>  <p>before</p>	<p>168 h</p> 

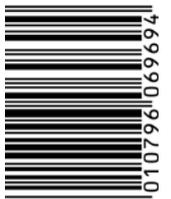

## pewag benefits at a glance

- ✓ Hundreds of years of experience with chains and components
  - ✓ Extensive product portfolio
  - ✓ Engineered and manufactured in Europe. Made in Europe.
  - ✓ Innovative products made of high-quality material
  - ✓ pewag meets all quality standards
  - ✓ Various areas of application
  - ✓ Lifting solutions for a variety of industries
- ✓ Customised products and solutions
  - ✓ 24/7 online product trainings in the pewag academy
  - ✓ Customer-focus and extensive service level
  - ✓ pewag is a global player with an international network of subsidiaries
  - ✓ One-stop manufacturer

\*We also have a stock of the discontinued KAGW sets (AW instead of MW master link), which can be offered with a special price. But beyond this pewag also can offer powder coated items in different colors (e.g. RAL 7016 - anthracite grey) for the stage and theater business. Additional items with PCP coating are available upon request. Subject to prior sales. We provide customised chain slings
